President's Message

Dear AEF Members and Supporters,

Sixty years ago, six visionary individuals established the AEF and for 60 years AEF has been true to its mission by providing financial assistance to Armenian students and educational institutions. We hope you will join us in celebrating AEF's 60th Anniversary on November 6, 2010 at the new Marriott-Ritz Carlton Hotel at LA Live in downtown Los Angeles. The 60th Anniversary Committee, chaired by Al Cabraloff, is working very hard to make this a successful and memorable event. This will be the first major AEF banquet since the 50th Anniversary.

I am truly amazed of the accomplishments of this small organization with only one part-time employee in its Glendale office and one employee in Yerevan. The majority of the work has been done by AEF members, who volunteer countless hours and are never reimbursed for their expenses.

During the last decade, AEF has allocated over \$4.3 million, with the majority of this amount funding the renovation of schools in remote villages of Armenia, Artsakh and Javakhk. This of course could not have been possible without the generous financial support of our community.

I would like to take this opportunity to extend our sincerest appreciation for your continued support. If you have any questions or comments, please do not hesitate to call me at home at (818) 956-0423.

From: Tatevik Aragelyan

My name is Tatevik Aragelyan. I study at Yerevan State Medical University 6th year class. In the summer of 2007 I learned about this program and with a great hope I applied and received the scholarship which for me is hugely appreciated and great help.

I am grateful to all those who organize, sponsor and help this program. Also, those who even have a small input in this program.

Anyone who contributes and helps this program understands and hopes that it is done to advance our people and improve their quality of life. With your support many students, including I, have the opportunity to study, become a specialist and a useful person to the Armenian nation.

I feel responsibility not only for myself but for the entire Armenian nation. I'll do my best to become an advanced specialist, help others and I'll always remember that in all my achievements you had a key investment.

Computers Project

The Computer in Every Village School Program Committee is very pleased to report that our pilot project has officially started. AEF received generous donations from its members and supporters to install computers at 27 AEF renovated schools. Our pilot program has delivered four computers, two printers, and software to the Isahakian Village School in the Shirak Region and two computers, one printer, and software to the Artashat Village School. The pilot systems have been successfully installed, configured, and tested. AEF has also contracted with GITC of Gyumri to go to each school and train the school staff in the use of the computers and installed programs, and provide technical support. Our next step is to roll out the remainder of computer systems to the remaining schools identified. The roll out will be based by region so that maximum cost efficiency will be achieved. This is a very exciting program because it will enable the village schools' students to become computer literate so that young village students will learn the vital and valuable computer skills so they can improve their academic and employment opportunities in the future. If you would like to learn more about how you can support by providing computers to AEF village schools, please call George Issaiaans at (818)334-1915.
