Garni

The fortress of Garni is situated in the village of the same name in the Kotayk district. That was a mighty fortress well known from chronicles (Cornelius Tacitus, Movses Khorenatsi, etc.).

The structures of the fortress of Garni are in perfect harmony with the surrounding nature. The fortress is situated in a picturesque mountain locality and commands a broad panorama of orchards, fields and jagged canyon of the Azat River.

In very ancient times (the third millennium BC.) a cyclopic fortress existed there. Since the 3rd century B.C. to the 4th century AD Garni was a summer residence of the kings and the place where their troops were stationed.

Geghard

North-east of Garni (Kotayk district), higher up the gorge of the Azat River, there is a magnificent monument of medieval Armenian architecture - Geghard monastery. The specific character of this monument reflects, no doubt, the peculiarities of the austere and majestic scenery around it. The picturesque gorge of Gegharda-dzor with its high and precipitous cliffs is extremely winding, and the monastery opens to view unexpectedly behind a turn of a steep path leading to it. In the 1950s a road sign was put up near this turn - a lioness on a high pedestal, with its head turned as if showing the way. Its figure is stylistically connected with the decoration of the monastery.

Information about the schools proposed to renovation by “AEF” in 2008

Region Kotayq, village Qanaqeravan “Poqr Mher” educational center

1. Construction estimate exists. It has been made up ministry
2. I have seen the school and have closely reviewed the estimate.
3. All the works and materials are intended in the estimate. Most of the work will be done benevolent.
4. The school consists of 1 building. The school is two-storied.
5. Our suggestion was to renovate the whole school.
6. The roof is zinc-plated and is intended to be partly repaired. Conductors will be built.
7. The school's electricity in normal state but there is need for a little work.
8. The school is heated with stoves. Further it will be gasificated.
9. The floors are intended for being covered with oil cloth. In the corridor the floor is under ceramic slabs.
10. The toilets are both outdoors and indoors. Only the ones of outdoors must be repaired.
11. The doors and windows are in normal state. There is need for partial repairing.
12. The school was built in 2004.
13. 4200 people live in the village.
14. 160 pupils study in the school.
15. 22 teachers and 35 executive personals work in the school.
16. It is 6 km from Yerevan to Qanaqeravan.

To my mind the school must be immediately renovated. The school headmaster is Mr. Edgar Miqayelyan. To my mind after the renovation it will be normally kept.
