

# AEF ARMENIA SCHOLARSHIP PROGRAM NEWSLETTER

April 2018

## BECAUSE EDUCATION MATTERS

Education is the driving force behind the development and success of Armenia. The Armenian Educational Foundation (AEF), among its numerous educational programs, provides full tuition scholarships to students attending public universities in Armenia and Artsakh. AEF wire transfers each student's tuition directly to the institution providing capable students an opportunity to pursue their educational goals and ultimately contribute to the shaping of Armenia's and Artsakh's future.

Being well aware of employment demands both nationally and globally, this year the Scholarship Committee specifically targeted students in Science, Technology, Engineering, Mathematics (STEM) related fields and awarded 89 new scholarships in these majors.

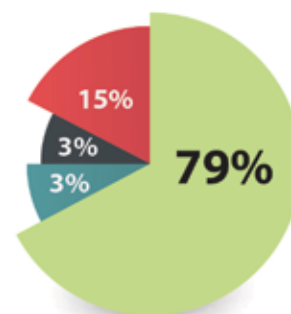

AEF also awarded scholarships covering 30% of the tuition for 23 Syrian-Armenian refugee students (AGBU/Gulbenkian sponsor the other 70%). This specially earmarked \$40,000 fund allocates \$10,000 annually for a period of four years.

Additionally, AEF provided full tuition scholarships to 23 graduate students pursuing their teaching certification.

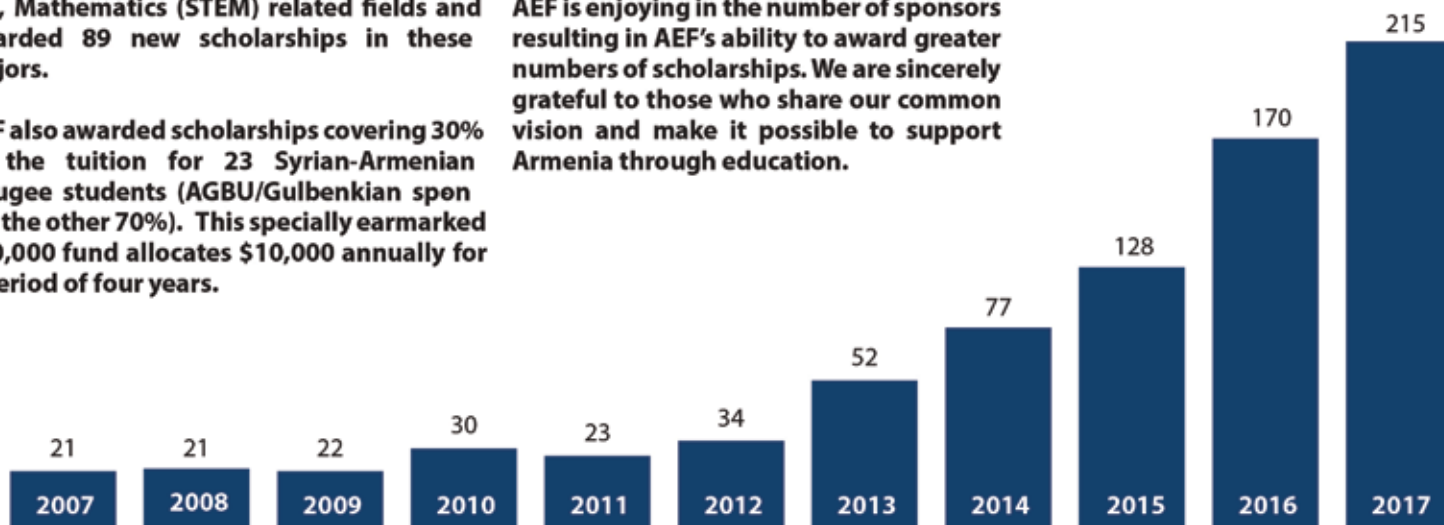

AEF recognizes the great importance of education, including preparing and supporting graduating students in finding employment in Armenia. The Scholarship Committee arranged for professionals in various fields to present workshops, seminars and group discussions focused on exploring employment opportunities, providing career information and potential internships for our students.

Most inspiring is the prominent growth AEF is enjoying in the number of sponsors resulting in AEF's ability to award greater numbers of scholarships. We are sincerely grateful to those who share our common vision and make it possible to support Armenia through education.

# Volunteer work

AEF students must volunteer a minimum 100 community service hours each year in order to participate in the scholarship program.

Happiness is working with special needs children of Armavir school

Volunteers provide unique learning opportunities at a Red Cross dormitory for disadvantaged children

A team of AEF volunteers organize and implement intellectual games in Artsakh

Student volunteers on a mission to make Armenia sparkle

AEF students rebind old books and promote a "green" classroom in Goris

## Volunteer work

AEF students enthusiastically help Pyunic, Association for the Disabled

AEF students help needy families in Artsakh

Volunteers bind and renew books at a school in Vanadzor

Volunteers cheer up children of Vanadzor orphanage

Every year, AEF students help to gather and dry flowers taken to the Genocide Museum on April 24th

# Volunteer work

Students donate blood to help others celebrate life

AEF volunteers spread good tidings and hope to the elderly

AEF volunteers bring smiles to children at a daycare center for disadvantaged families

Strategizing the next move at Orran, Yerevan

*"We are delighted with the symbiotic relationship we have with AEF students. They are bright, willing and compassionate and serve as great role models for our children. In turn, we hope that the AEF volunteers at Orran grow socially, gain experience thus becoming better citizens of our nation."*

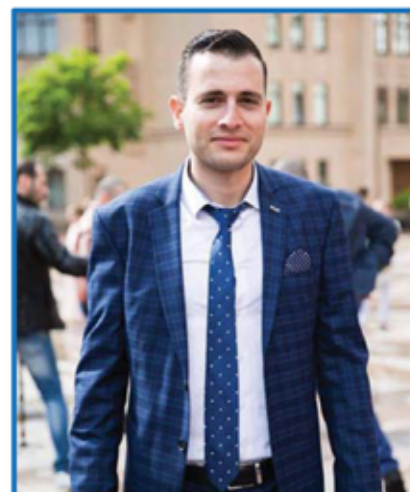

*Armine K. Hovannisian, Founder & CEO of Orran, NGO*

## Success Stories

### Levon Yeghiazaryan

AEF scholarship alumnus, Levon Yeghiazaryan (BA-2010, MA-2013) is making headlines in innovation. Levon, and his colleague, have designed and produced an LED phyto lamp which accelerates the growth of plants by speeding up the process of photosynthesis. The lamps can be used both in greenhouses and enclosed spaces where there is limited or no light. While such lamps already exist, Levon's invention is able to activate an even faster growth rate of plants, is less expensive because of the LED chips that are used, is energy saving and notable for its longevity. Levon is currently pursuing global markets. We are extremely proud of Levon and wish him much success.

### Tereza Gharabaghtsyan

Dear Armenian Educational Foundation, years ago when I was a second year student, the tuition fee was a problem for me. That's why I applied for AEF scholarship program. I wanted to become a business manager and marketing specialist. When I was writing about my future plans in 5 and 10 years in my motivation letter, I mentioned I would work for 5 years and create my own business as a result.

The same year I started working on part-time basis at several marketing research companies. Then I was hired at a consulting company on a full-time basis as an employee in sales department. Two years later I became the head of the sales department. In 2014 I founded "Teress" fashion house that manufactures women's clothes.

Now I am attempting to expand my business converting it into a massive and developing business from small fashion house. I keep on working hard to make investments and I believe that in 3 and 5 years I will be able to introduce my work in the leading shops of local markets and abroad. Thank you for helping me at the right time.

Best regards,

Tereza Gharabaghtsyan

## Human Interest Story

### Ruben & Lusine Geghamyan and baby Mikayel

In 2017, AEF's first grandchild was born on August 22, 2017. Baby Mikayel was welcomed by parents Ruben Geghamyan and Lusine Alexanyan, both AEF scholarship recipients. Ruben, a recipient in 2013-2014, sponsored by Alice Grigoryan Niewerowics and Lusine, 2015-2018, sponsored by Tufenkian Fund and Raffik & Helly Khachaturian met while volunteering with other AEF fellow students to deliver gifts and toys to needy families during the 2015 Christmas season. Ruben, who had volunteered to drive the group of students in a borrowed car, could not help but be enamoured by beautiful Lusine seated next to him dressed as Snow White (Dziun Anoosh). With love and good will in the air, the rest became history as they married and formed the first lineage of a purebred AEF family.

As the fairy tale plays out, it becomes clear that the impact of the Armenian Educational Foundation reaches far beyond education and into a realm of unimaginable dimensions. The most crucial question, however, remains..... "Who will be Mikayel's lucky sponsor in 2035?"

## Mini-Grants...Powering Civic Engagement

In 2016, AEF initiated a new project to encourage our students in becoming civically active by giving back to their communities as contributing citizens. In an effort to empower the youth, twice a year, AEF offers two \$500 mini-grants to AEF scholarship recipients who initiate a novel proposal to positively impact their community. Students write a proposal identifying a project, describe the existing reality and highlight the positive impact it will make in the community. An implementation plan and timeline are outlined in the proposal along with a detailed accounting of how the funds will be spent. A committee then reviews the proposals and grants the funds based on functionality, sustainability and degree of impact on the community.

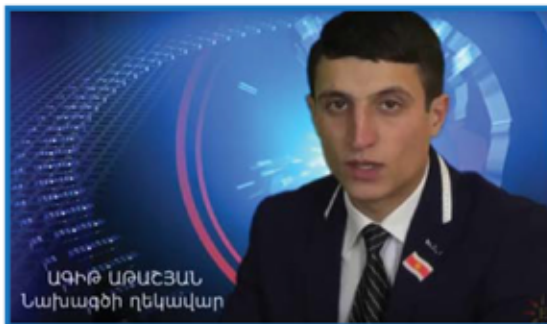

Here are a few of our success stories:

**Gohar Melkonian** - master's degree candidate at YSU, Radio Engineering and Communication. Currently works as a hardware engineer at Armtab Company and robotics teacher at Ghokhanch NGO.

**Project:** A small theater in Spitak, housed in the Spitak Fine Arts School, where educational films for children will be screened weekly. The films will be followed by discussions and related activities. Children from nearby village schools will also be invited to participate in organized programs. The facility will also serve as a classroom to teach programming and robotics to children of Spitak.

**Sponsor: Richard Tufenkian Fund**

**Agit Atashyan** - BA in IT from Polytechnic University.

**Project:** "Discover Yezidis". A series of 11 short videos highlighting the origin, culture, religious traditions, participation in the April 4-day war and other aspects of Yezidis living in Armenia. The project aims to show the friendly co-existence of both groups with emphasis on the historic participation of Yezidis in Armenia. The videos are intended for educational purposes and personal viewing. The texts have been translated into English by fellow AEF students and are now available at [ezidimedia.com/en](http://ezidimedia.com/en).

Feel free to enjoy.

**Sponsor: Richard Tufenkian Fund**

**Gohar Abrahamyan** - master's degree candidate at Artsakh State University, department of History & Politology.

**Project:** The Interrelations of Humans, Nature & Historical Monuments. Through specially organized lectures and essay contests for schoolchildren, the project fostered students' love and respect toward nature, while raising awareness and appreciation of historical monuments in Artsakh. Students of Vaghuhas village in Martakert province, and Kolkhozashen village in Martuni province were provided with informational leaflets and awarded prizes for the essay contests.

## AEF Annual Scholarship Reception

AEF Scholarship Reception-Yerevan 2017

The 2017 Annual Scholarship banquet held on October 8th at Meridian Expo Center proved, yet again, that AEF is indeed making a positive impact on the future of Armenia. Over 300 guests including students, AEF Board members, sponsors, and supporters were present to acknowledge and celebrate the achievements of our students confirming that, indeed, "education matters". During the ceremony sixty-eight 2017 graduates were awarded "Certificates of Completion" while 21 students who volunteered at Orran NGO received "Certificates of Appreciation" from Orran for their dedicated work. AEF also proudly recognized and honored more than 40 of our students who fulfilled their duty in the military protecting the security of our homeland. The veterans, who served and returned to continue their education, were invited to the stage and received an enthusiastic standing ovation. The exhilarating event inspired pride in everyone and forged hope for Armenia's future.

Armine Haroyan, Gagik Gevorgyan  
Vahe Hacıpian

"We are one big family, bonded to each other forever," said Armineh Haroyan, AEF Program Director in Yerevan. She added, "Our office is like a home, always open to students who need help, guidance, direction and some TLC." Speaking on behalf of the students, Hamlet Khenkoyan, a third year scholarship recipient said, "We all feel a deep sense of belonging and are gratefully indebted to AEF and to our supporters for their immeasurable care and the difference they make in our lives."

## AEF Partners with Teach For Armenia (TFA)

TFA provides training to the best and brightest university graduates, obtains teaching certification and supports them during their two-year teaching term in Armenia's most disadvantaged village schools. The purpose of TFA's program is to inspire, innovate, and bring hope to students through new teaching methods and access to the latest educational resources. Thanks to the generosity of Bobken and Hasmik Amirian and donations received in lieu of gifts for Alice Petrossian's birthday, AEF funded full tuition scholarships for 23 TFA future teachers studying for their master's degree and obtaining their teaching certification.
